

APRIL NEWSLETTER

Summer in Georgia already!

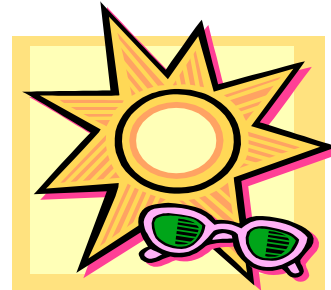

Spring was short this year for us in the South and many of you may have noticed your trucks' transmission overheating while towing. FPS has developed a special auxiliary transmission cooler that mounts behind the grill of your 6.0L or 7.3L truck. This cooler helps to reduce transmission temps and extend the life of your truck. Remember, in an automatic transmission 180°F is ideal, at 210°F you want to pull over and let the truck cool off, and 235°F there is likely fluid/transmission damage. At only \$270 (parts and labor) this cooler is an affordable way to ease the stress on your transmission.

Saleen Heritage Wheels

Love your Mustang but hate the stock wheels? FPS has new chrome sets of the Saleen Heritage Wheels in stock and available for purchase. They fit 2005 and up Mustangs and are 19x9 inches for the front and 19x10 inches for the rear. On sale for \$850 for a set of four you won't be able to find a cooler wheel at a better price! Give us a call today to place your order!

April 2010

After such a cold winter, it's nice to see a little bit of sun!

Newsletter Spotlight

To help monitor the temps of the vital components of your truck let FPS build you a custom gauge pod! Our pods are easily installed and available through mail order. The cost of the pods start at \$467 for a three gauge and \$572 for a quad gauge pod. FPS can also install your gauge pod for an additional fee.

CLASSICS AT FPS!

A 1965 Mustang and a Shelby Cobra Kit Car were in the shop together this past week!

This month FPS had several classic cars in our shop for some routine maintenance and upgrades! The 1965 Mustang has been wonderfully restored by the owner to be a drag car! We did some basic maintenance including an oil change and a full vehicle check out to ensure that it's running in tip-top shape.

The Cobra Kit Car was here for Doug's expertise on special Ford models. The Kit Car has a 5.0L Mustang engine that needed engine wiring work as well as a custom tune by Doug to maximize the performance of this special car!

If you own a Ford, Lincoln, or Mercury classic car that requires any attention don't hesitate to contact us here at FPS!
